

## CRIMINAL BACKGROUND CHECKS

Recommended for high or  
unknown risk applicants

Rentcheck's **NATIONAL** and **ENHANCED CRIMINAL BACKGROUND CHECKS** bundle is designed for deeper screening requirements, particularly for potential employment applicants.

Unlike provincial and territorial files alone, this package covers all applicable Canadian jurisdictions.

Privacy-compliant criminal background data is obtained through the **CPIC** (Canadian Police Information Centre) using verified legal names and birthdates.

CPIC searches will report any Canadian convictions for indictable offenses that have not been pardoned or discharged, as well as relevant information that may be on file, such as pending or ongoing law enforcement actions.

### How Screening Professionals can benefit

- Criminal Background Checks can substantially reduce your risk of becoming a fraud victim and incurring the high costs of recovering associated losses.
- When screening potential high-risk applicants, Criminal Background Checks can alert you to past illegal activities that may not be disclosed on an employment application.
- Criminal Background Checks are usually available within 3 business hours.
